Claire E. Edwards Will be Successor to Late Charles Whitney

Telgram Received in Waukegan Monday Put An End to the Uncertainty

Claire C. Edwards of Waukegan was appointed by Governor Dunne Monday judge of the seventeenth judicial circuit court to succeed Charles Whitney, deceased.

The above telegram received at noon put an end to the uncertainty felt during the past several weeks by members of the Lake county bar and at the same time puts onto the Circuit bench in this county a man who has received the backing of twenty-six prominent members of the Lake County Bar association, and who is admitted on every hand to be the only logical man for the place from every standpoint.

One of the most emphatic reasons pointing to the witness of the Lake county bar backing Mr. Edwards, is seen in the indisputable fact, that, among the several candidates for the place, he is conceded to be the only man who can retain the judgeship in this county when the matter is put to a vote by the people of the seventeenth dis-

He attended the common schools of Lake county, later graduated from the Northern Indiana Normal school at Valparaiso, spent one year at Northwestern University and one year at Wheaton college, Ill. In 1897 he became a student of the night school of the Chicago law school graduating from that institution in 1900. During the entire perion of his school training, Mr. Edwards worked his way through preparatory school, college and professional school. Upon his admission to the bar, Mr. Edwards practised for a short time inGrayslake. He then moved to the county seat and has practised in Waukegan for the past fourteen

Bitten By Tarantula

While assisting at the grocery store of her husband at 5:15 o'clock Friday evening, Mrs. Axel Lybeck, residing at 1220 Lenox avenue, Waukegan, placed her hand on a large bunch of bananas and started to pull several pieces of the fruit from the bunch. She had merely closed her fingers around the bananas when she suddenly felt a stinging sensation in the end of the forefingger on her right hand. She jerked her hand away. A large tarantula fell from the bananas to the floor. Mrs. Lybech then realized that she had been bitten by the deadly insect.

BOOSTER MEETING **UF REPUBLICANS** WAS HELD SATURDAY

The Lake County Central Committee were hosts at a roast beef dinner given Saturday noon in the grill room of the Parish House. Committeemen from practically every precinct in the county were present, thirty-five sitting down to the spread. In addition to the committee there were a number of successful republican candidates.

The affair was in the nature of a booster meeting to bring the republicans of the county together in a closer bond of sympathy. From expressions made by those present it is very clear that the strength of the Republican party is as great as ever and at the county again will step into the lead as the banner republican county of the

All those present expressed the greatest confidence in the prospects. Some of the older ones present recalled the many years of their allegiance to the G. O. P. and did not hesitate to declare that the prospects never looked brighter than at present. They predict a sweeping Republican victory.

The dinner proved such a success that it was decided to hold a similar affair in the same hall next Saturday at the same hour. At that time not only the precinct committeemen and the successful republican candidates will be present but also the defeated candidates as it is felt their assistance

Among the candidates present at the dinner was former Congressman Foss.

"I entered the ruins of a farmhouse where the eldest son, a lad of nineteen, had been shot before his mother and father's eyes, because the Germans thought he was old enough to be a soldier. While Termonde was burning they made holiday here. They found a gramophone and plenty of champagne. They seated themselves in the garden, played tunes, sang and drank to the crackling chorus of 1,600 burning homes. A woman who witnessed the feast said to me: 'These Germans are veritably without hearts.'

"When the officers had gone the camp followers, who acted as orderlles and hangers-on around the army. burst open the door and ravaged the house. "Melle and Termonde are typical of a large part of the country, but there are exceptions. "Pick It Up."

Habits formed in childhood are usually lasting. With that idea as a basis the playground and school authorities in Rochester have placed signs conspicuously located on the playgrounds on which are displayed these words, "Pick it up." The idea is to have the children clear away the disorder they create during play before they leave the grounds. The plan is reported to have shown immediate results. It has been possible to dispense with the caretaker of the grounds. The boys and girls leave the grounds in perfect condition. No waste paper is left scattered about, no playthings are out of place, all is snugged up for closing before the crowd of rollicking youngsters leave their playground. It is just as easy to teach children to be orderly as to

Challis Wrandall is found murdered in a road house near New York, Mrs. Wran-dall is summoned from the city and identifies the body. A young woman who ac-companied Wrandall to the inn and subsequently disappeared, is suspected. Mrs. Wrandall starts back for New York Mrs. Wrandall starts back for New York in an auto during a blinding snow storm. On the way she meets a young woman in the road who proves to be the woman who killed Wrandall. Feeling that the girl had done her a service in ridding her of the man who though she loved him deeply, had caused her great sorrow. Mrs. Wrandall determines to shield her and takes her to her own home. Mrs. Wrandall hears the story of Hetty Castleton's life, except that portion that retleton's life, except that portion that re-lates to Wrandall. This and the story of the tragedy she forbids the girl ever to tell. She offers Hetty a home, friendship and security from peril on account of the tragedy. Mrs. Sara Wrandall and Hetty attend the funeral of Challis Wrandall at the home of his parents. Sara Wrandall and Hetty return to New York after an absence of a year in Europe. Leslie Wrandall, brother of Challis, makes himself useful to Sara and becomes greatly interested in Hetty. Sara sees in Leslie's infatuation possibility for revenge on the Wrandalls and reparation for the wrongs she suffered at the hands of Challis Wrandall by marrying his murderess into the family. Leslie, in company with his friend Brandon Booth, an artist, visits Sara at her country place.

"Who?" demanded Wrandall vacantly. His mind appeared to be elsewhere.

"She'll be immensely gratified, I'm sure." "For heaven's sake, Les, don't be

such a fool as to show her the thing," cried Booth in consternation. "She'd never understand."

"Oh, you needn't worry. She has a fine sense of humor."

Booth didn't know whether to laugh or scowl. He compromised with himself by slipping his arm through that of his friend and saying heartily: "I wish you the best of luck, old

CHAPTER VIII.

In Which Hetty is Weighed. Booth and Leslie returned to the city on Tuesday. The artist left behind him a "memory sketch" of Sara Wrandall, done in the solitude of his room long after the rest of the house was wrapped in slumber on the first night of his stay at Southlook. It was as sketchily drawn as the one he had made of Hetty, and quite as wonderful in the matter of faithfulness, but ut-

Booth caught the angry flash in her eyes, preceding the flush and unaccountable pallor that followed almost immediately. He felt guilty, and at marking: the same time deeply annoyed with Leslie. Later on he tried to explain, but the attempt was a lamentable failure. She laughed, not unkindly, in his face.

Leslie had refused to allow the sketch to leave his hand. If she could have gained possession of it, even for an instant, the thing would have been torn to bits. But it went back into his commodious pocketbook, and she was too proud to demand it of him. She became oddly sensitive to

Booth's persistent though inoffensive scrutiny as time wore on. More than once she had caught him looking at her with a fixedness that betrayed perplexity so plainly that she could not fall to recognize an underlying motive. He was vainly striving to refresh his memory; that was clear to her. There have it that way." is no mistaking that look in a person's eyes. It cannot be disguised,

Moreover, it meant that Vivian's portrait was to be temporarily disregarded.

Sara Wrandall was quick to recognize the first symptoms of jealousy on the part of her brother-in-law. The new idol of the Wrandalls was in love, selfishly, insufferably in love as things went with all the Wrandalls. They hated selfishly, and so they loved. Her husband had been their king. But their king was dead, long live the king! Leslie had put on the family crown-a little jauntily, perhapscocked over the eye a bit, so to speak -but it was there just the same, an-

noyingly plain to view. Sara had tried to like him. He had been her friend, the only one she could claim among them all. And yet, beneath his genial allegiance, she could detect the air of condescension, the bland attitude of a superior who defends another's cause for the reason that it gratifies Nero. She experienced a thrill of malicious joy in contemplating the fall of Nero. He would bring down his house about his head, and there would be no Rome to pay the

The next morning at ten he was at Southlook, arranging his easel and canvas in the north end of the long living room, where the light from the tall French windows afforded abundant and well-distributed light for the enterprise in hand. Hetty had not yet appeared. Sara, attired in a loose morning gown, was watching him from a comfortable chair in the corner, one shapely bare arm behind her head; the free hand was gracefully employed in although she pretended to be entirely indifferent to the preparations. "The same model," he said quietly. She nodded her head.

"Hetty Glynn, I am sure," she said, after a pause, without lifting her eyes.

He drew a long breath, and she looked up quickly. What he saw in her honest blue eyes convicted her.

Sara Wrandall came into the room at that moment. Hetty hastily closed the magazine and held it behind her. Booth had intended to show the reproduction to Mrs. Wrandall, but the girl's behavior caused him to change his mind. He felt that he possessed a secret that could not be shared with Sara Wrandall, then or afterward. Moreover, he decided that he would not refer to the Hawkright pictures again unless the girl herself brought up the subject. All this flashed through his mind as he stepped forward to greet the newcomer.

When he turned again to Hetty, the magazine had disappeared. He never saw it afterward, and, what is more to the point, he never asked her to produce it.

He thought hard over the situation. The obvious solution came to him: She had been at one time reduced to the necessity of posing, a circumstance evidently known to but few and least of all to Sara Wrandall, from whom the girl plainly meant to keep the truth. This conviction distressed him, managing a cigarette. He was con- but not in the way that might have scious of the fact that her lazy, half- been expected. He had no scruples alert gaze was upon him all the time, about sharing the secret or in keeping the fear that Mrs. Wrandall might hear of all this from other and perhaps ungentle sources. As for her posing for Hawkright, it meant little or nothing to him. In his own experience, two girls of gentle birth had served as models for pictures of his own making, and he fully appreciated the exigencies that had driven them to it. One had posed in the "altogether." She was a girl of absolutely irreproachable character, who afterward married a chap he knew very well, and who was fully aware of that short phase in her life. That feature of the situation meant nothing to him. He was in no doubt concerning Hetty. She was what she appeared to be: A gen-

In his solitary hours at the cottage on the upper road, he was wont to take his friend Leslie Wrandall into consideration. As a friend, was it not his duty to go to him with his sordid little tale? Was it right to let Wrandall go on with his wooing when there existed that which might make all the difference in the world to him? He invariably brought these deliberations to a close by relaxing into a grim smile of amusement, as much as to say: "Serve him right, anyway. Trust him

Uncle Sam's Marine Band Is Now 116 Years Old

WASHINGTON.—A recent writer, in discoursing about the Marine band, says that it came into being 116 years ago, when President John Adams approved an act establishing it as a permanent organization. The original law provided for a fife and drum

longing for some real music came over him. While ashore he was delighted and pleased with the performance of a Sicilian regimental band and at once conceived a plan for insuring plenty of music during the remainder of the voyage. He at once blandly invited the musicians on board his vessel for the ostensible purpose of playing for a ball. Probably induced by the prospect of receiving a liberal compensation, the members of the band accepted the invitation with alacrity.

If congress each year were to give the library all the funds for which it asks, there would still be exercised in the purchase of books that selection which has been the policy of the past. The work of selection is even carried into the copyright deposits, only a portion of which are placed in the library proper.
